

BATS IN THE MEDIA

How can we ensure balanced & accurate reporting?

Online panel discussion / webinar

31 July 2020, 16.00 (GMT), [URL](#)

MODERATOR

DAN RISKIN

Producer, science communicator, author & Professor specialising in the of evolutionary biology (bats)

PANELLISTS

LILIANA DÁVALOS

Professor specialising in the evolution, diversity & conservation of Neotropical bats. Co-founder of GBatNet

ADAM HART

Science communicator & professor, specialised in entomology, ecology and citizen science

TIGGA KINGSTON

Professor specialising in the conservation ecology of bats, especially in SE Asia, co-founder of GBatNet

ALEX MORSS

Naturalist, journalist, biologist, ecologist & author, focused on the protection of species & their habitats

DETAILS

While we acknowledge that the basic premise for the panel (the portrayal of bats by the media) is global, logistical & common language constraints may limit participants to English speakers in certain time zones. But ALL are welcome.

The session starts at 16.00 GMT (09.00 in the western Americas to 21.00 in Central Asia), using the Zoom platform.

Passcode: 808781

You will be able to participate (pose questions) by typing in the Zoom Q&A window.
