

GLOBAL SOUTH BATS

1

WE ARE THE
NEXT GENERATION
OF UNITED BAT
CONSERVATIONISTS

2

OUR MISSION

is to **connect** and **empower** bat conservation allies in the **Global South** where locally-led research and wildlife protection are most needed.

3

WE ARE
THE BAT
GUARDIANS

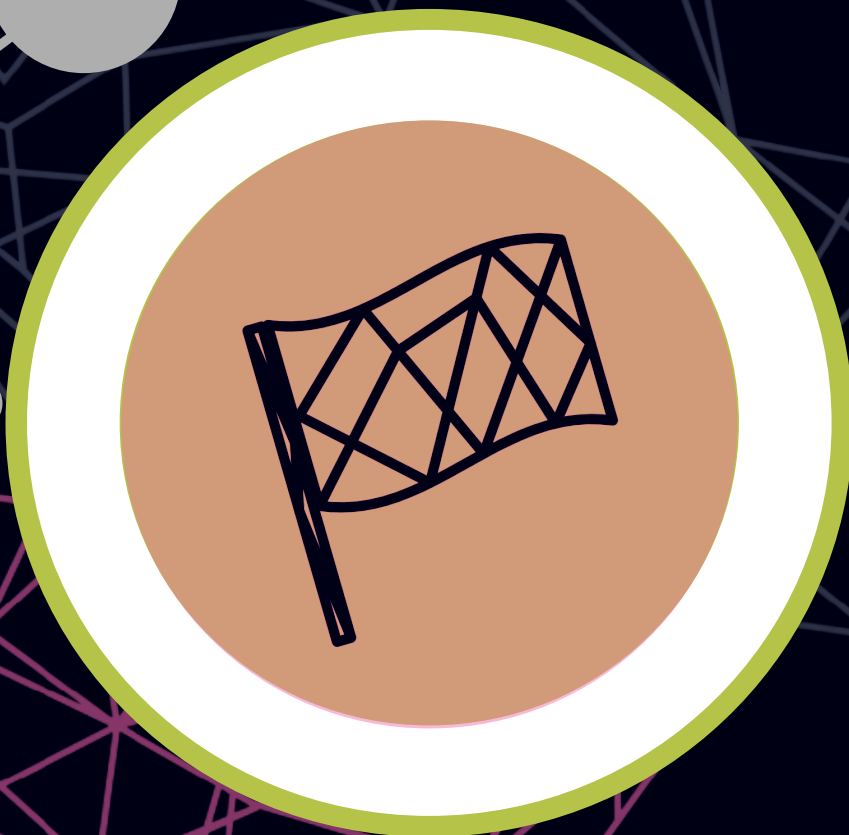

We range from early career conservationists to established experts who believe we can achieve more by **cooperating** across our rich & diverse nations.

4

WHY THE GLOBAL SOUTH?

It is a term coined by economists that we have adopted as it represents the places where **biodiversity** is the highest, but where **economic** and **social challenges** are also huge.

JOIN OUR NETWORK

We're building a network for bat protectors in the Global South. Together, we'll provide resources, organize courses, discussion groups, facilitate mentorships, and **provide community**.
